Notice

This form documentation is provided solely for information purposes. It is intended to provide a practical illustration of the note documentation that can be used within the scope of the Euro PP Charter. It is designed to be adapted as per the negotiations between the Issuer and the Subscribers.

This form documentation was drafted for use in the context of an unlisted, unrated, unsecured issue of notes, bearing interest at a fixed rate, in registered form and admitted to the operations of Euroclear France, by a company that has not already issued listed (equity or debt) securities.

It will be necessary to adapt this documentation for any issue which may fall outside the scope of the aforementioned framework. Special attention is drawn to the importance for each party to negotiate the contractual terms of each transaction (particularly the information and undertakings clauses, for which the corresponding provisions of the form loan agreement may be used), which will vary based, inter alia, on the specific characteristics of the transaction in question, the Issuer's circumstances, and market conditions.

The relationship between the arranger(s) and/or the dealers of the transaction, if any, and the Issuer, are governed by a mandate agreement to be drawn up and negotiated separately or via a modification of this subscription agreement, whichever option the parties prefer.

The need, if applicable, to ensure the confidentiality of the information communicated by the Issuer at the time of the preparation of the issue and/or during the life of the notes issue can be covered in the non-disclosure agreement, a form of which can be found in the Euro PP Charter, and/or within the scope of this documentation (in which case, such provisions should be supplemented).

None of the contributors (direct or indirect, authors or participants in the various working groups and market consultations) to the preparation of this documentation shall incur any liability due to its content.

This document has been produced in co-operation with the International Capital Market Association.

3. ISSUER'S UNDERTAKINGS

The Issuer undertakes to [the] Subscriber[s] that:

- (a) it will execute the Fiscal Agency Agreement at the latest on the Settlement Date;

5. ISSUER'S REPRESENTATIONS AND WARRANTIES ⁴

(A) As a condition of the undertaking by the Subscriber[s] [acting severally and not jointly] to subscribe and pay for the Notes on the Settlement Date, the Issuer represents and warrants to the Subscriber[s], on the date of this Agreement, that:

The obligations of the Issuer under this Agreement, the Conditions and the Fiscal Agency Agreement comply with the laws of the country of its registered office, are valid, binding on it and capable of being enforced before a court.

(iii) **Relationship with other obligations**

The signing of this Agreement and the Fiscal Agency Agreement and the performance of the obligations resulting therefrom and from the Conditions for the Issuer do not conflict and will not conflict:

- (a) with any law or regulation that is applicable to it;
- (b) with any of its incorporation documents or with any of the incorporation documents of its Subsidiaries (or equivalent documents); or
- (c) with any agreement or other instrument having a binding effect on the Issuer or any of its Subsidiaries, or by which any of their assets are bound.

- (b) Each of the signatories of this Agreement and of the Fiscal Agency Agreement has full power and capacity to execute said agreements on behalf of the Issuer.

⁴ The representations and warranties contained in Article 5(A) are indicative and their content must be modified to reflect each transaction based on the Issuer's identity and activity. The parties must, in particular, agree on the scope of the representations and warranties made by the Issuer depending on whether they are made concerning only the Issuer, or regarding the Issuer and all of its Subsidiaries or, alternatively, with respect to the Issuer and the Material Subsidiaries.

(v) **Authorised nominal amount**

The issue of the Notes on the Settlement Date shall not exceed the limit of the nominal amount authorised by the deliberation of the [general meeting/board of directors/executive board] of the Issuer on [___].

- (b) this Agreement and the Fiscal Agency Agreement to which the Issuer is a party to be admissible as proof before the courts of the country of its registered office,

have been obtained and are in force.

(vii) **Absence of court-ordered insolvency procedures**

No action the purpose of which is to announce the liquidation, dissolution [(other than, as regards a Subsidiary of the Issuer, with respect to a solvent restructuring not having or not likely to have a Material Adverse Effect)], receivership, safeguard (including accelerated safeguard and accelerated financial safeguard), the commencement of conciliation proceedings or the designation of an *ad hoc* administrator (or any equivalent proceedings in any competent jurisdiction, including an attachment procedure) concerning the Issuer or regarding one of its Subsidiaries is in progress, to the best of its knowledge, nor is one imminent or foreseeable.

(viii) **Tax deduction**

Pursuant to the regulations currently in force, the payments that will be made by the Issuer for the Notes to persons who have their tax domicile or their registered office outside France are not liable for any tax in France by deduction or withholding at the source to which the Issuer is bound or that the Issuer must carry out.

(ix) **Registration and stamp fees**

- (a) The Original Financial Statements (as such term is defined in the Conditions), prepared in accordance with GAAP (as such term is defined in the Conditions), are lawful and truthful and give a faithful image of the Issuer's assets, financial situation and earnings, as well as of the consolidated financial situation and the consolidated earnings of the Group (as such term is defined in the Conditions) for the tax year to which they refer.
- (b) The accounting and financial documents submitted by the Issuer pursuant to this Agreement, prepared in accord with GAAP, are lawful and truthful and give a faithful image of the Issuer's assets, financial situation and earnings, as well as of the Group's consolidated financial situation and the Group's consolidated earnings for the tax year to which they refer.

- In most cases, the Notes constitute an unsecured debt of the Issuer.
- The ranking of the Notes is *pari passu* with that of the Issuer's debt having equivalent characteristics, save for a duly documented exception (for example, the limitation of the security interests, which is covered in the Issuer's undertakings).

In the event that the Notes are secured, a ranking agreement (or inter-creditor agreement) can be entered into between the various creditors benefiting from the security interests.

(xvii) **Taxes and contributions**

⁹ Insertion of a threshold to be discussed based on the economics of the transaction and on the Issuer's circumstances.

¹⁰ As the "extraterritorial" scope of the sanctions applied on the basis of foreign law can be open to discussion and should therefore be interpreted carefully, the insertion in this stipulation of the US and/or UK regulation is subject to negotiation between the parties and a case-by-case examination of the Issuer's circumstances.

¹⁵ Within the scope of the work of the Charter, Euro PP market participants have highlighted the need to organise a certain degree of transparency of Euro PP transactions. In addition to the fact that doing so avoids the random communications that can be seen on certain private placements markets, transparency promotes the market and provides references for the structuring and pricing of new transactions; it also facilitates monitoring by financial stability authorities.

In any case, depending on its circumstances and its specific constraints, an Issuer can choose to maintain the confidentiality of all or some of the terms of the transaction and to reject this communication clause.

Except in certain cases (e.g., the publication of a press release by the Issuer), the communication by the arranger (or by the main Subscriber in the case of Euro PP without an arranger, or by the Issuer itself) of the authorised information must not take place prior to the Euro PP settlement date.

3. STATUS OF THE NOTES AND NEGATIVE PLEDGE

3.1 Status of the Notes ³⁵

The Notes constitute direct, unconditional, unsubordinated and unsecured (subject to Article 3.2(a)) obligations of the Issuer and ranking equally between themselves and (with the exception of the mandatory provisions of French law) equally with all other present or future unsubordinated and unsecured obligations (with the exception of those benefitting from a preference in accordance with the law) of the Issuer.

3.2 Negative Pledge ³⁶

- (a) So long as any of the Notes remains outstanding, the Issuer will not (and will ensure that none [of its Subsidiaries/of the Material Subsidiaries] will) grant or

³⁴ For issues subject to French law; to be modified if the issue is subject to another law or is not cleared.

³⁵ Key points:

- In most cases, the Notes constitute unsecured debts of the Issuer.
- The rank of the Notes is *pari passu* with that of the debt having equivalent characteristics, save for a duly documented exception (in that case, the limitation, if any, of security interests, is addressed in the negative pledge clause).
- In the case of security interests given to guarantee the Notes, an agreement on the rank (or inter-creditor agreement) can be entered into between the various creditors who are beneficiaries of security interests.

³⁶ The wording of this article regarding limitations on the granting of security interests (negative pledge) is merely an example and must be examined on a case-by-case basis as a function of the Issuer's identity and activity.

This condition must be worded in light of the negative pledge clause used in the other financial documentation to which the Issuer is a party (if any), particularly, as regards exceptions and thresholds (acquisitions), in order for the investors to be able to benefit from the same protections as those of the Issuer's other financial debts having equivalent characteristics. Alternatively, it is possible to provide for a negative pledge clause that differs from that of the other financing agreements, for example, by granting security interests to a certain percentage of the value of the assets, excluding any other exception.

The Material Subsidiaries or all of the Subsidiaries may be covered by the negative pledge clause.

A list of the existing security interests may be prepared by the Issuer and submitted to the Noteholder[s] (unless it is already mentioned in the conditions precedent).

The negative pledge clause may concern, as the case may be, all or part of the debt (bonds, bank debt or financial debt, such as leasing and factoring), with, if applicable, a list of the authorised security interests and exceptions.

permit to subsist any Security Interest upon the whole or any part of its assets or its revenues unless, at the same time or prior thereto, the Issuer's obligations under the Notes are equally and rateably secured therewith.

- (b) So long as any of the Notes remains outstanding, the Issuer will not (and will ensure that none [of its Subsidiaries/of the Material Subsidiaries] will):
- (i) assign or dispose in any manner whatsoever, of assets intended, or that could potentially be intended, to be leased or acquired by the Issuer or any other member of the Group;
 - (ii) carry out any assignment of receivables with recourse;
 - (iii) consent to an amount of money, a bank account or any other account from being used for a special purpose, a merger or for setting off with other amounts; and
 - (iv) enter into a preferential agreement having an effect that is similar to the above;

if the agreement is entered into or the transaction is executed primarily in order to contract a Financial Debt or to finance the acquisition of an asset.

- (c) Paragraphs (a) and (b) above do not apply:
- (i) to Security Interests granted after the Issue Date with the prior consent of the Masse (as defined in Article 11 (*Representation of the Noteholders*)³⁷;
 - (ii) to any Security Interest and/or Quasi-Security Interest existing on the Issue Date, contained in the list set out in Schedule 2 to these Conditions, that are maintained or rolled over after the Issue Date, unless the principal amount they guarantee exceeds the amount indicated in such list or if such Security Interests or Quasi-Security Interests are not rolled over to guarantee the same obligations as those they guarantee on the Issue Date;
 - (iii) to the reservation of title clauses, rights of retention or merger or set off clauses resulting from the continuation of the activities or from the normal course of business of the relevant entity or in accordance with the standard terms and conditions of its suppliers; and³⁸
 - (iv) to the statutory preferential rights regarding the management of the day-to-day business of the relevant entity.

In this Article 3.2 (*Negative Pledge*), "**Quasi-Security Interest**" means any agreement or transaction described in paragraph (b) above.

4. UNDERTAKINGS

So long as any of the Notes remains outstanding, the Issuer shall comply with the covenants described in this Article 4 (*Undertakings*).
